XL RANGE
INDUSTRIAL OVENS

XL INDUSTRIAL OVENS up to 200/300 °C

XL ovens are suitable for processes requiring a powerful airflow and air change. For all intensive drying applications, heating, polymerization, ... or any other thermal test.

A robust construction.

External sheets made of steel. White and blue epoxy paints.
Inner casing made of stainless steel corrosion-resistant.
Simplified calibration with the Ø 20mm access port on the left side.
Thick insulation asbestos free : excellent thermal stability, low heat loss, energy cost reduced, low surface temperatures.

A powerful vertical airflow for an amazing temperature homogeneity !

An exclusive ventilation system : air is sucked in the upper part of the oven. Then, it is heated and blown from the bottom back part

A wonderful adjustable air change.

Large inlet and outlet air. The various clearances are removed effectively.
Adjustable exhaust air flap. The output is connectable to an extraction system.

A surprising heating power.

A rapid rise in temperature.

Work safely.

Independent thermostat and adjustable safety controller with digital display (classes 2 and 3.1). Heating is cut off in case of failure, overload or over-temperature.
Visual and audible alarms.

Loading shelves

2 shelves provided with anti-tilting guide bars. Multiple levels of loading.

An accurate and efficient temperature control.

C3000 PID electronic controller. Easy to use. Precision : 0.1°C. Measurement by PT100 probe.
Functions : delayed start, heating-up ramp, on cycle timer, repeat loop.

XL0112

XL0343

XL0490

XL0686

XL0980

OPTIONS

2 Door with viewing window

3 Fan speed controller

4 Air outlet extractor

5 Air cooling extractor

6 Digital weekly program timer

7 Temperature profiler

8 Temperature profiler and recorder

9 Internal lighting

10 Fan and heating stop

11 Access port Ø 60 mm

12 Factory calibration 1 point

13 Homogeneity control 9 points

ACCESSORIES

1 Shelf with guide bars

2 Recovery tray

3 Subframe with feet

4 Subframe with castors

5 Data logger 2 channels

6 Portable paperless graphic recorder
4 or 6 channels

XL1000

XL1400

XL1800

1 Temperature extension max. 300°C

2 Door with viewing window
To see inside of the oven.

3 Fan speed controller
Adjusts the speed of the air fan.

4 Air outlet extractor
Evacuates the exhaust air into a duct system.

5 Air cooling extractor
Enables cooling the temperature in the working volume at the end of the cycle.

6 Digital weekly program timer
Set times of operation of the oven for each day of the week. Ventilation is stopped only when the oven temperature has fallen to 80°C to prevent damage to the fans.

7 Temperature profiler
4 programs with 16 steps each.
Allow you to heat at different temperatures during your process or provide progressive temperature decreases.

8 Temperature profiler and recorder
Large graphical display. Real-time monitoring of temperatures. Allows the creation of programs. Record the temperature measured. 3 extra channels. With USB and RJ45 plugs.

9 Internal lighting
With switch on the control panel.

10 Stop fan and heating when the door is opened

11 Access port Ø 60 mm
Centered on the left side.
Allows the passage of cables or sensors.

12 Factory calibration certificate
1 temperature (105°C, 150°C or 200°C).
Measurement in the center of the working chamber (according to FD X 15-140).

13 Homogeneity control certificate
1 temperature (105°C, 150°C or 200°C).
Measurement at 9 points in the working chamber (according to FD X 15-140).

1 Shelf with guide bars
Chromed steel. Max. distributed loading : 30 kg.
Or reinforced shelf : max. distributed loading 60 kg.
Anti-tilting guide bars.

2 Recovery tray
Stainless steel, height : 20 mm. Protects the floor of the oven.

3 Subframe with feet / with castors
4 (Except XL1400 et XL1800). Elevates the oven for an easier loading. 2 castors with brake.

5 Data logger with 2 channels
Saves the temperatures measured by two mobile sensors.

Software for data logger with 2 channels
Can set data logger and retrieve stored data.

6 Portable paperless graphic recorder
Full color screen display. Real monitoring of temperature changes. With USB and RJ45 plugs, and 4 or 6 connectors for mobile sensors.

7 Thermocouple J probe
Length 3 m, with plug. Accessory for recorders.
